On the monthly call yesterday, there were a number of questions raised regarding how the Regions should be implementing the March 26th memo. From my notes, here are some examples:

Ex. 5, Deliberative process. Predecisional deliberative questions and comments about implementation of policy.

I am sure that there are others (and probably some that I missed). Please send me questions that you would like raised on the call. I am including the links below to the March 26th memo, as well as the Q&A document that was posted recently.
